**Re: SPPP Annual Report and Certification**  
Bayway Refinery Complex  
Four-Landfill Area Remediation Project  
NJPDES Permit No.: NJ0265811  
Program Interest No.: 749901

To Whom It May Concern:

Per the requirements of New Jersey Pollutant Discharge Elimination System (NJPDES) Individual Industrial Stormwater Permit No. NJ0265811 and N.J.A.C. 7:14A-24.9, this letter shall serve as the Annual Report for the Stormwater Pollution Prevention Plan (SPPP) developed for the above-referenced remediation project. The SPPP, originally certified on November 15, 2017, was prepared on behalf of ExxonMobil Environmental and Property Solutions Company (ExxonMobil) by Kleinfelder, Inc. (Kleinfelder). Since its implementation, Kleinfelder has maintained the SPPP and verified its effectiveness throughout the ongoing remedial construction activities.

Routine inspections of the facility's procedures, control measures and best management practices (BMPs) are generally conducted on a weekly basis, with additional inspections completed as-needed (e.g., before and after storm events). Routine inspections are documented on forms maintained in the project records. An annual inspection was completed by Kleinfelder on October 21, 2020, during which it was verified that the facility is in compliance with applicable permit conditions and the SPPP. Enclosed is a copy of the SPPP Annual Inspection Form and an original signed Annual Certification Form.

Please contact Matt Kuchta of Kleinfelder at [mkuchta@kleinfelder.com](mailto:mkuchta@kleinfelder.com) or (609) 631-1831 if you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Maureen Forlenza".
